SKILLS

Languages:	Python, C, FullStack
Tools/Platforms:	MongoDB, Tableau, ETL, Informatica Developer for Data Quality(IDQ), MS SQL Server
Soft Skills:	Problem-Solving, Team Player, Project Management, Adaptability, Leadership,Quick Learner

PROJECTS

Forensic Analyzer Tool <i>Python, HTML, ML Predictive Analysis,CSS</i> GitHub	Dec' 25
- Built a digital forensic analysis utility in Python to automate extraction and inspection of metadata from files and system logs. - Implemented custom modules for pattern detection, data parsing, and reporting, improving investigation speed. - Leveraged libraries such as Pandas, regex, and file processing modules to handle diverse data types and outputs	

Educational Portal (EduProjectPortal) <i>HTML,CSS,Javascript,Node.js,React</i> GitHub	Sep'25
- Designed and implemented a user authentication system with secure login/signup functionality, enabling students and educators to access personalized educational resources and dashboards.. - Built responsive UI components and seamless navigation flows to enhance user experience for learners, including password recovery and session management. - Developed front-end architecture using modern frameworks and integrated it with backend services to support future expansion of features such as course access, progress tracking, and collaborative learning.	

Real-estate Management System <i>HTML,CSS</i> GitHub	Aug' 23
- Developed a responsive Real-Estate Management System using HTML, CSS, and JavaScript to enable users to search, buy, sell, and rent properties without intermediaries. - Implemented property listing and filtering features based on category and price range, displaying key details such as area, bedrooms, bathrooms, pricing, and ratings. - Designed a modern, user-centric interface with modular sections (Hero, Services, Featured Properties, Contact, Newsletter) to enhance usability and overall user experience.	

CERTIFICATES

Build Generative AI Apps and Solutions with No-Code Tools Springboard	Aug'25
Master Generative AI & Generative AI tools (ChatGPT & more) Springboard	Aug' 25
Fundamentals of Network Communication Coursera	Dec' 24
TCP/IP and Advanced Topics Coursera	Dec' 24

ACHIEVEMENTS

HackerRank Python (Basic) Certification HackerRank	Jan'26
Demonstrated proficiency in Python fundamentals, including data types, control flow, functions, and problem-solving.	
HackerRank SQL (Basic) Certification HackerRank	Jan'26
Validated strong understanding of SQL queries, joins, aggregations, filtering, and database fundamentals.	
Machine Learning Prediction Web App Streamlit	Dec'25
Developed and deployed an interactive Streamlit web application for machine learning–based predictions, covering data preprocessing, model integration, and UI design.	
Team Leadership & Project Execution	Jan'24
Led a 15-member team to successfully complete a project ahead of schedule by coordinating tasks, resolving blockers, and ensuring timely delivery.	

EDUCATION

Lovely Professional University	Phagwara, Punjab
Bachelor of Technology	Nov' 25 – Present
Computer Science and Engineering; CGPA: 7.03	
Narayana College	Vijayawada, AP
Intermediate	Mar' 21 – May' 23
PCM; Percentage: 95%	
S.K.V.H School	Vijayawada, AP
Matriculation	May' 21- Completed
Percentage: 96%
